

## **Spiritual Friends**

### **By NoKi Moon**

### **Giraffe**

The Giraffe is the world's tallest land animal, reaching nearly 18 feet high. These animals tower over the grasslands of Africa.

Because the giraffe is so tall, they see danger long before shorter animals. To dream of a giraffe means you should watch for danger. You may be able to spot something that others have overlooked. Try to look at things from a different perspective.

To see one of these tall beasts in your tea leaves means good things will come your way, only if you're willing to reach for them, and take risks by putting your neck out there.

To have a giraffe as your spirit guide means standing up for yourself. You must be distinguished and everyone knows who you are. By bending down and drinking, a giraffe becomes vulnerable, so you must not lose sight and get caught unaware.

Giraffes are not overly vocal, therefore you should not be. Say things when they need to be said, but prevent from running at the mouth. Be seen, not heard.

The giraffe also teaches us to stay grounded when your head is in the clouds. It's OK to dream and be imaginative, but don't lose sight of reality.
