

I would like to first start by sharing with you the tarot cards that I chose. When I first started, my first deck was the [Tarot of the Witches](#). It was a good starter tarot and I worked well with them. After a few years, I decided to find a card deck that would fit my style; my personality.

In searching for a deck, I was able to find the [Vanessa Tarot](#). It is a cute, sassy, and glamorous deck that was inspired by pop culture heroines. It's feminine, fun and still readable by everyone. I felt this deck fit my personality as well as gave my 'customers' something sassy to look at.

I usually use just the majors to get to the root of the question that my 'customer' wants to know. For this newsletter, I will include all cards which should make for an interesting read.

Please enjoy this as much as I enjoy doing it for you.

Blessings,

Amara Sage
